# 2011 Property Tax Report Lake County

# with Comparisons to Prior Years

## **Legislative Services Agency**

August 2011

This report describes property tax changes in Lake County between 2010 and 2011, with comparison to changes since 2007. In 2011, the changes from the big tax reform of 2008 were fully phased in with the elimination of the last of the state homestead credits. The 2009 recession affected assessments and local tax credits in many counties. Changes in local levies and assessments also were important in many counties.

### **Comparable Homestead Property Tax Changes in Lake County**

The average homeowner saw a 0.9% tax bill decrease from 2010 to 2011.
Homestead taxes in 2011 were 30.4% lower than they were in 2007, before the property tax reforms.
93.7% of homeowners saw lower tax bills in 2011 than in 2007.
49.5% of homeowners saw tax increases of between 1% and 19% from 2010 to 2011.
The largest percentage of homeowners have seen between a 10% and 39% decrease in their tax bills from 2007 to 2011.

#### **Homestead Property Taxes**

Homestead property taxes decreased 0.9% on average in Lake County in 2011, compared to a statewide average increase of 4.4%. Lake County homestead taxes were 30.4% lower in 2011 than they were in 2007, before the big tax reform. The small decrease in 2011 was mainly due to the operation of the tax caps. The phaseout of the state homestead credit in 2011, which had been 4.1% in 2010, and the rise in tax rates would have increased homestead tax bills. However 25.3% of Lake County homes are eligible for tax cap credits, so the effect on tax bills was limited.

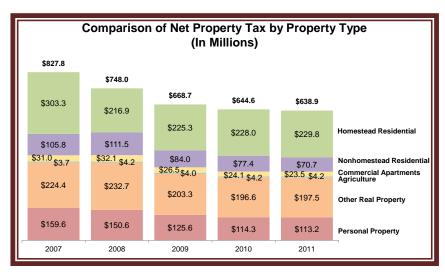

#### **Tax Rates**

Property tax rates increased in most Lake County tax districts. The average tax rate increased by 3.7% because the decline in net assessed value exceeded the reduction in the levy. Levies in Lake County declined by 1.4%. The biggest levy increases were in the Hammond general fund, the Lake Central Schools debt service and bus replacement funds, the Merrillville School debt service fund, the Munster parks fund, and the Highland park bond fund. The biggest levy reductions were in the county debt service fund, the Gary Sanitary general fund, the Hammond Schools debt service fund, the Hammond City police pension and parks funds, the Merrillville Town general fund, the Gary Public Transportation general fund, the Lake Central Schools pension debt fund, the Munster park bond fund, the Gary Schools debt service fund, and the Gary City fire pension fund. Lake County's total net assessed value declined 3.6% in 2011. (The certified net AV used to compute tax rates declined by 4.9%.) Homestead and agricultural net assessments were reduced by 6.2% and 2.3%, respectively. Other residential assessments showed a decrease of 4.2%, while business net assessments decreased by 0.7%.

\*\*\*\*\* TAXES ON MOST NONHOMESTEAD PROPERTY FELL BECAUSE OF DECLINING ASSESSMENTS AND THE TAX CAP LIMITS \*\*\*\*\*

**Net Tax Bill Changes - All Property Types** 

Net tax bills for all taxpayers fell 0.9% in Lake County in 2011, compared to a statewide average increase of 2.8%. Other residential property, which includes smaller rentals and second homes, saw net tax bills decrease by 8.7%. Tax bills for commercial apartments fell 2.4%. Business tax bills - which include commercial, industrial and utility buildings, land and equipment - were nearly unchanged.

These tax bill decreases reflect the declining assessments and the limits on tax bills from the tax caps. Agricultural tax bills rose 0.9%. This was partly due to the 3.2% increase in the base rate assessment of farm land, from \$1,250 to \$1,290 per acre for taxes in 2011.

#### **Tax Cap Credits**

Property taxes are capped at 1% of gross assessed value for homesteads, 2% for other residential property (including rental housing and second homes) and farmland, and 3% for business land, buildings, and equipment. Taxpayers receive credits when their tax bills exceed the caps. Credits are revenue lost to local governments.

MOSTLY DUE TO HIGHER TAX RATES \*\*\*\*\*

\*\*\*\*\*

Total tax cap credit losses in Lake County were \$120 million, or 16.1% of the levy. TAX CAP CREDITS INCREASED IN 2011, This was much more than the state average loss rate of 9.2%, and much more than the median value of 3.8% among all counties. Tax rates are the main determinant of tax cap credits, and Lake County's tax rates were higher than the state median.

More than half of the total tax cap credits were in the 3% business category; most of the rest were in the 2% other residential/farmland category. Lake had many taxing districts with rates well above \$3, which makes property in all property categories eligible for credits. The largest percentage losses were in the Gary and East Chicago School Corporations, many of the Gary special districts, the East Chicago Sanitary District, the Gary and East Chicago Library Districts, and Calumet Township. The largest dollar losses were in the cities of Gary and East Chicago, Gary Schools, and the county unit.

Lake County Tax Cap Credits	1%	2%	3%	Elderly	Total	%of Levy
2010 Tax Cap Credits	\$8,582,858	\$38,486,814	\$53,897,586	\$116,935	\$101,084,193	13.4%
2011 Tax Cap Credits	11,812,187	39,168,211	68,712,945	184,282	119,877,625	16.1%
Change	\$3,229,329	\$681,396	\$14,815,359	\$67,348	\$18,793,432	2.7%

Tax cap credits increased in Lake County in 2011 by \$18.8 million. or 18.6%. The additional

credits represent an added loss of 2.7% of the total tax levy. Most of the increase in tax cap credits was in the 3% tax cap category, which covers business. Increases in tax rates in districts where rates were already above \$3 made businesses eligible for more tax cap credits. The elimination of the state homestead credit added to the 1% tax cap credit increase.

#### The Effect of Recession

The 2009 recession had a big effect on Lake County assessments for pay-2011. Property values and construction activity appear to have fallen in Lake County in 2009, which reduced assessments for taxes in 2011. The assessment decline increased tax rates, despite the drop in Lake's overall tax levy. The higher rates increased tax cap credits. The added \$18.8 million tax cap credit revenue loss can be attributed mostly to the decline in assessments caused by the recession.

\*\*\*\*\* 2009 RECESSION REDUCED ASSESSED VALUES IN 2011, RESULTING IN HIGHER TAX CAP CREDIT REVENUE LOSSES \*\*\*\*\*

Notes: A Taxing District is a geographic area of a county where taxing units overlap, so the sum of the taxing unit tax rates is the total district rate.

The Tax Rate is the gross levy divided by net assessed value, in dollars per \$100 assessed value.

The LOIT, COIT, and CEDIT credits are funded by local income taxes.

The Net Tax Rate for Homesteads is calculated by reducing the tax rate by the various credit percentages.

Notes: Circuit breaker tax cap credits are tax savings for taxpayers and revenue losses for local government units. Circuit breaker credits are highest in tax districts with the highest tax rates. These are usually districts that include cities or towns because the municipal tax rate is included in the district tax rate. This means that most circuit breaker credits are in cities and towns and in units that overlap cities and towns.

#### Circuit Breaker Credit Types:

Homesteads are owner-occupied primary residences and include homestead land and buildings in the 1% tax cap category. Owner-occupied mobile homes and agricultural homesteads are included in this category. This category only includes credits on the portion of the property that qualifies as a homestead.

Other Residential/Farmland includes small rental housing units, larger commercial apartments, second homes, long-term care facilities, and farmland, in the 2% tax cap category.

All Other Real/Personal is commercial, industrial, and utility land and buildings, and business equipment, including agricultural equipment, in the 3% tax cap category. This category also includes credits on the portion of homeowner properties that do not qualify as a homestead.

Elderly includes credits for the 2% annual limit on homestead tax bill increases for low-income homeowners, age 65 and over.

The *Total Levy by Unit* is gross property taxes levied, before all tax credits. For TIF districts, this amount represents the TIF proceeds before circuit breaker credits. This information is included to allow comparison to the circuit breaker revenue losses.

Numbers may not total due to rounding.
